ABOUT US

SHAMA is a company founded in 1974 by late Mr. SHOEB E SHUMS. The company which has a young and dynamic managerial structure, has achieved over the years a recognized importance, both on the national as well as international level. This has been possible with a mission to provide its customers with consistent quality Polymers and Lubricant Additive that adhere to specification and provide economic value.

SHAMA delivers on time everytime. We have the knowledge and experience in consolidation and processing orders as our warehousing facilities are near the ports, which allows us to monitor each individual shipment of our customers. Additionally we are supported by a global network of material suppliers and our huge warehouses at: Nhava Sheva (Mumbai-India), Ajman (U.A.E) and Antwerp (Belgium) gives us the capacity to store large amount of materials. This adds up to significant cost savings for our customers.

MISSION

The quality of SHAMA'S products has enabled to compete in the international market relying on strong marketing network and sound financial standing. Its strategy for the future is focused on diversification and adaptation of its products to the more varied markets. Along with this policy, there is an ambitious expansion plan in order to consolidate its international activities and so face the challenge of the immediate future.

VISION

As a global leader in innovative and sustainable solutions, we have a duty to continuously improve our products and services to meet the evolving needs of our customers. Our commitment to excellence and ethical business practices enables us to build strong, long- lasting relationships with our suppliers and customers based on trust and mutual respect.
